

Felted water bottle holder

Will hold a 16 to 20-ounce bottle of water or a soda can.

Blue Knifty Knitter

1 skein Paton's Merino or other non-superwashed wool

Holder:

E-wrap cast on

Knit one row

purl one row

Repeat these two rows for a total of 30 rows, ending with a purl row

purl one row

Knit four rows

gather off, pull tightly and tie off.

Strap:

Make 3-peg i-cord for approximately 60" or desired length

To make i-cord:

e-wrap three pegs

Bring the yarn back to peg one and e-wrap again

knit off

Continue e-wrapping and knitting, wrapping only from right to left and letting yarn 'float' behind the pegs to return to the first peg on each row.

Felt pieces in hot water with a bit of Eucalan soap.

Put a water bottle into the holder and shape so the bottom is flat.

When both pieces are dry, sew strap to the holder and embellish as desired.
